Index to Volume 41

Authors and Titles

Adams, P.B., and Lawson, S.D.,
Pollination in Australian orchids: a critical assessment of the literature 1882-1992 553
Ash, J.E. *see* Passioura, J.A.

Battaglia, M.,
Seed germination physiology of *Eucalyptus delegatensis* R.T. Baker 119
Battaglia, M., and Reid, J.B.
Ontogenetic variation in frost resistance of *Eucalyptus delegatensis* R.T. Baker 137
The effect of microsite variation on seed germination and seedling survival of *Eucalyptus delegatensis* 169
Beardsell, D.V., Knox, R.B., and Williams, E.G.
Breeding system and reproductive success of *Thryptomene calycina* (Myrtaceae) 333
Fruit and seed structure of *Thryptomene calycina* (Myrtaceae) 183
Germination of seeds from the fruits of *Thryptomene calycina* (Myrtaceae) 263
Beardsell, D.V., O'Brien, S.P., Williams, E.G., Knox, R.B., and Calder, D.M.,
Reproductive biology of Australian Myrtaceae 511
Bell, D.T.,
The effect of light quality on the germination of eight species from sandy habitats in Western Australia 321
Bell, J.C. *see* Playford, J.
Bell, T.L., and Pate, J.S.,
Morphotypic differentiation in the south-western Australian restiad *Lyginia barbata* R.Br. (Restionaceae) 91
Berryman, C.A., Eamus, D., and Duff, G.A.,
The influence of CO_2 enrichment on growth, nutrient content and biomass allocation of *Maranthes corymbosa* 195
Bowman, D.M.J.S., and Latz, P.K.,
Ecology of *Callitris glaucophylla* (Cupressaceae) on the MacDonnell Ranges, Central Australa 217
Bowman, D.M.J.S., and Panton, W.J.,
Differences in the stand structure of *Eucalyptus tetrodonta* forests between Elcho Island and Gunn Point, Northern Territory 211
Bowman, D.M.J.S., Woinarski, J.C.Z., and Menkhorst, K.A.,
Environmental correlates of tree species diversity in stage III of Kakadu National Park, northern Australia 649
Brodribb, T., and Hill, R.S.,
A physiological comparison of leaves and phyllodes in *Acacia melanoxylon* 293

Cairns, S. *see* Ramsey, M.
Calder, D.M. *see* Beardsell, D.V.; O'Brien, S.P.; Sydes, M.A.
Carthew, S.M.,
Patterns of flowering and fruit production in a natural population of *Banksia spinulosa* 465
Claridge, A.W., Robinson, A.P., Tanton, M.T., and Cunningham, R.B.,
Seasonal production of hypogeal fungal sporocarps in a mixed-species eucalypt forest stand in south-eastern Australia 145
Clifford, S.C., and Sedgley, M.,
Pistil structure of *Banksia menziesii* R.Br. (Proteaceae) in relation to fertility 481
Conroy, J.P.,
Corrigendum to: Influence of elevated atmospheric CO_2 concentrations on plant nutrition (Vol. 19 Nos 4, 5) 143
Considine, J.A. *see* Drew, R.A.
Cunningham, R.B. *see* Claridge, A.W.

Davidson, S.J. *see* Sindel, B.M.
Dixon, K.W. *see* Meney, K.A.
Drew, R.A., Considine, J.A., and McComb, J.A.,
Effect of fructose on growth of papaw shoot explants *in vitro* 739
Dudzinski, M.J., Old, K.M., and Gibbs, R.J.,
Pathogenic variability in Australian isolates of *Phytophthora cinnamomi* 721
Duff, G.A. *see* Berryman, C.A.

Eamus, D. *see* Berryman, C.A.
Egerton-Warburton, L.M., Griffin, B.J., and Lamont, B.B.,
Pollen-pistil interactions in *Eucalyptus calophylla* provide no evidence of a selection mechanism for aluminium tolerance 541
Errington, W.J. *see* Houston, T.F.

Fensham, R.J.,
The environmental relations of vegetation patterns on chenier beach ridges on Bathurst Island, Northern Territory 275
Friedel, M.H., Nelson, D.J., Sparrow, A.D., Kinloch, J.E. and the late Maconochie, J.R., What induces Central Australian arid zone trees and shrubs to flower and fruit? 307
Fuss, A.M. *see* Sedgley, M.

Gardiner, C. *see* Jordan, G.J.
Gibbs, R.J. *see* Dudzinski, M.J.
Giles, L.C. *see* Logue, S.J.
Griffin, B.J. *see* Egerton-Warburton, L.M.
Gross, C.L.,
The reproductive ecology of *Canavalia rosea* (Fabaceae) on Anak Krakatau, Indonesia 591
Groves, R.H. *see* Sindel, B.M.
Gunn, B.V. *see* Pinyopusarerk, K.

Harbard, J. *see* Sedgley, M.
Harriss, F., and Whelan, R.J.,
Selective fruit abortion in *Grevillea barklyana* (Proteaceae) 499
Heard, T.A.,
Pollinator requirements and flowering patterns of *Macadamia integrifolia* 491
Hill, R.S. *see* Brodribb, T.; MacPhail, M.K.
Houston, T.F., Lamont, B.B., Radford, S., and Errington, W.J.,
Apparent mutualism between *Verticordia nitens* and *V. aurea* (Myrtaceae) and their oil-ingesting bee pollinators (Hymenoptera: Colletidae) 369
Howell, G.J., Slater, A.T., and Knox, R.B.,
Secondary pollen presentation in angiosperms and its biological significance 417
Huang, Z. *see* McIntyre, S.

James, E.A., and Knox, R.B.,
Reproductive biology of the Australian species of the genus *Pandorea* (Bignoniaceae) 611
James, S.H., and Kennington, W.S.,
Selection against homozygotes and resource allocation in the mating system of *Eucalyptus camaldulensis* Dehnh. 381
Jianmin, G., and Sinclair, R.,
Comparative leaf water potentials of plants in burnt and unburnt dry sclerophyll vegetation 661
Jordan, G.J., Potts, B.M., Kirkpatrick, J.B., and Gardiner, C.,
Variation in the *Eucalyptus globulus* complex revisited 763
Jordan, G.J., *see also* MacPhail, M.K.

Kennington, W.J. *see* James, S.H.
Kilby, M.J. *see* Sindel, B.M.
Kinloch, J.E. *see* Friedel, M.H.
Kirkpatrick, J.B. *see* Jordan, G.J.
Knox, R.B. *see* Beardsell, D.V.; Howell, G.J.; James, E.A.
Koen, T.B. *see* Maze, K.M.

Lamont, B.B. *see* Egerton-Warburton, L.M.; Houston, T.F.
Latz, P.K. *see* Bowman, D.M.J.S.
Lawson, S.D. *see* Adams, P.B.
Logue, S.J., Giles, L.C., and Sparrow, D.H.B.,
Genotype and environment strongly influence barley anther response using Australian genotypes 227

McCaw, W.L.,
Effects of fuel-reduction burning on a *Eucalyptus obliqua* forest ecosystem in Victoria 413
McComb, J.A. *see* Drew, R.A.
McIntyre, S., Huang, Z., and Smith, A.P.,
Patterns of abundance in grassy vegetation of the New England Tablelands: identifying regional rarity in a threatened vegetation type 49
Maconochie, J.R. (the late) *see* Friedel, M.H.
MacPhail, M.K., Jordan, G.J., and Hill, R.S.,
Key periods in the evolution of the flora and vegetation of western Tasmania I. The Early-Middle Pleistocene 673
Martin, H.A.,
Monotoca-type (Epacridaceae) pollen in the late Tertiary of southern Australia 709
Maze, K.M., Koen, T.B., and Watt, L.A.,
Factors influencing the germination of six perennial grasses of central New South Wales 79
Meney, K.A., Dixon, K.W., Scheltema, M., and Pate, J.S.,
Occurrence of vesicular mycorrhizal fungi in dryland species of Restionaceae and Cyperaceae from south-west Western Australia 733
Moran, G.F. *see* Playford, J.
Munnich, D.J. *see* Robinson, J.B.
Myerscough, P.J. *see* Pannell, J.R.

Nelson, D.J. *see* Friedel, M.H.
Norwati, M. *see* Wickneswari, R.

O'Brien, P.A. *see* Yang, H.A.
O'Brien, S.P., and Calder, D.M.,
Reproductive biology and floral phenologies of the sympatric species *Leptospermum myrsinoides* and *L. continentale* (Myrtaceae) 527
O'Brien, S.P., *see also* Beardsell, D.V.
Odgers, B.M., and Rogers, R.W.,
Contrasting diaspore and vegetation attributes of grasses from natural and disturbed habitats in an urban eucalypt forest reserve 637
Old, K.M. *see* Dudzinski, M.J.
Orchard, P.W. *see* Robinson, J.B.

Pannell, J.R., and Myerscough, P.J.,
Canopy-stored seed banks of *Allocasuarina distyla* and *A. nana* in relation to time since fire 1
Panton, W.J. *see* Bowman, D.M.J.S.
Passioura, J.A., and Ash, J.E.,
Phenotypic, genetic and ecological variation in the *Eucalyptus saligna-E. botryoides* complex 393
Pate, J.S. *see* Bell, T.L.; Meney, K.A.
Pinyopusarerk, K., Gunn, B.V., Williams, E.R., and Pryor, L.D.
Comparative geographical variation in seedling morphology of three closely related red mahoganies, *Eucalyptus urophylla, E. pellita* and *E. scias* 23
Corrigendum to: Comparative geographical variation in seedling morphology of three closely related red mahoganies, *Eucalyptus urophylla, E. pellita* and *E. scias* (Vol. 41 No.1) 415
Playford, J., Bell, J.C., and Moran, G.F.,
A major disjunction in genetic diversity over the geographic range of *Acacia melanoxylon* R.Br. 355
Possingham, H.P.,
Impact of elevated atmospheric CO_2 on biodiversity: mechanistic population-dynamic perspective 11
Potts, B.M. *see* Jordan, G.J.
Prakash, N. *see* Ramsey, M.
Pryor, L.D. *see* Pinyopusarerk, K.

Radford, S. *see* Houston, T.F.
Ramsey, M.,
Floral morphology, biology and sex allocation is disjunct populations of Christmas bells (*Blandfordia grandiflora*, Liliaceae) with different breeding systems 749
Ramsey, M., Prakash, N., and Cairns, S.,
Breeding systems of disjunct populations of Christmas Bells (*Blandfordia grandiflora* R.Br., Liliaceae): variation in self-fertility and an ovular mechanism regulating self-fertilisation 35
Reid, J.B. *see* Battaglia, M.
Robinson, A.P. *see* Claridge, A.W.
Robinson, J.B., Munnich, D.J., Simpson, P.C., and Orchard, P.W.,
Pasture associations and their relation to environment and agronomy in the Goulburn district 629
Rogers, R.W.,
Selection for grasses with different carbon assimilation pathways under different sheep stocking pressures 327
Rogers, R.W,. *see also* Odgers, B.M.

Scheltema, M. *see* Meney, K.A.
Sedgley, M., and Harbard, J.,
Pollen storage and breeding system in relation to controlled pollination of four species of *Acacia* (Leguminosae: Mimosoideae) 601
Sedgley, M., Sierp, M., Wallwork, M.A., Fuss, A.M., and Thiele, K.,
Pollen presenter and pollen morphology of *Banksia* L.f. (Proteaceae) 439
Sedgley, M., *see also* Clifford, S.C.
Sierp, M. *see* Sedgley, M.
Simpson, P.C. *see* Robinson, J.B.
Sinclair, R. *see* Jianmin, G.
Sindel, B.M., Davidson, S.J., Kilby, M.J., and Groves, R.H.,
Germination and establishment of *Themeda triandra* (Kangaroo Grass) as affected by soil and seed characteristics 105
Sivasithamparam, K. *see* Yang, H.A.
Slater, A.T. *see* Howell, G.J.
Smith, A.P. *see* McIntyre, S.
Sparrow, A.D. *see* Friedel, M.H.
Sparrow, D.H.B. *see* Logue, S.J.
Sydes, M.A., and Calder, D.M.,
Comparative reproductive biology of two sun-orchids; the vulnerable *Thelymitra circumsepta* and the widespread *T. ixioides* (Orchidaceae) 577

Tanton, M.T. *see* Claridge, A.W.
Thiele, K. *see* Sedgley, M.

Wallwork, M.A. *see* Sedgley, M.
Watt, L.A. *see* Maze, K.M.
Wickneswari, R., and Norwati, M.,
Genetic diversity of natural populations of *Acacia auriculiformis* 65

Wiliams, R.R.,
Mineral nutrition *in vitro* - a mechanistic approach 237
Williams, E.G. *see* Beardsell, D.V.
Williams, E.R. *see* Pinyopusarerk, K.

Yang, H.A., Sivasithamparam, K., and O'Brien, P.A.,
Mycelial interactions and the potential use of tuft formation in characterising *Rhizoctonia solani* isolates affecting cereals 253
